

# Campaigns (Cont.)

## Healthcare Campaign

We unite to push and advocate for a universal health care system that provides health care for all regardless of employment and residency status and that is inclusive of reproductive justice rights, as well as access to alternative/holistic types of healthcare. This campaign aims to expose the issues and struggles of Filipinos (including Filipino health care workers) accessing healthcare and advocating for their rights.

## Support GABRIELA Women's Party (GWP)

We support GWP, a progressive party representing the interests specifically of Filipina women, and which advocates for the rights and welfare of all Filipinos. During the last election period in the Philippines (May 2010), members of SiGAW supported the campaign of GWP and promoted its candidates through various forms of media. We will continue to support the efforts of GWP to pass pro-people legislation by educating the community of their work via public events.

For more information on any of the above campaigns, contact [sigaw.la@gmail.com](mailto:sigaw.la@gmail.com); address your email to Terrie Cervas of the Campaigns Committee.
