

*Dear Friends, Family, and Extended Community,*

Season's Greetings! :-)

I'm writing to share something new that I've stumbled across while engaged in my healing work practice, and I want to share it with you. A unique energy that I've come to call a mahal-based healing energy that seems to interact with our most essential, whole, and complete selves. I'm calling it a mahal healing, or, a more refined version of its name that better describes its purpose - a "mahal attunement."

Would you be interested in being one of the first 100 people to experience a Mahal Attunement™? I have been blessed to receive insight into this new healing energy that has profound emotional, mental, and physical healing effects. **MAHAL** means "**Love**." And the "healings" themselves have revealed themselves to be more like "attunements" to a core essence of our existence that I can only describe as Love. As such, I would love to share this amazing experience with you and those whom you love.

I am conducting 4 groups studies of 25 participants each. Each participant will agree to a minimum of 3 healing sessions that last 30 minutes each over the course of a month. Each session can be done by phone or skype/facetime. How is this possible? I am working with quantum physics, which is working at a subatomic level. And the atomic world is *nothing* like the world we live in. In fact, there are infinite possibilities to what is possible for our human potential. A Mahal Attunement™ will open that door of possibility for you - whether it is a specific healing, a recharge of energy, or something else that you have yet to imagine.

The bottom line - If you're interested in experiencing a shift for the better or if there is even a small part of you that is a tad bit interested in what this is all about, just say yes. **Give it a try. You can change your life in just 30 minutes.**

I am especially interested in working with individuals who are struggling through various dis-ease, illness, or what would be considered an extreme diagnosis of health issues. I would like to see how this energy (mahal attunements™) can support those we love who are dealing with what some have labeled as severe or untreatable health concerns. I am also looking to work with people who have chronic pain issues. I am not creating any limitations here with the Mahal Attunement™ ~ I want to see what's possible by working with as many people as possible. This includes individuals in pain or discomfort from minor aches, pains, anxiety, or stress. I would also like to explore how this energy supports you if none of the above issues relate to you and if you want to simply be open to a new experience.
